The TOEFL exam has four sections: Reading, Listening, Speaking, and Writing. Each section is timed, and the total test takes about 3 hours to complete.

TOEFL exam practice questions are an essential part of preparing for the test. They allow you to familiarize yourself with the format of the test, the types of questions you will be asked, and the level of difficulty. There are many different types of TOEFL exam practice questions available, including:

- Official TOEFL practice questions from ETS, the makers of the TOEFL exam
- Practice questions from third-party companies
- Free practice questions available online

When choosing TOEFL exam practice questions, it is important to select questions that are representative of the actual test. You should also make sure that the questions are at the appropriate level of difficulty. If the questions are too easy, they will not help you prepare for the test. If the questions are too difficult, they will discourage you and make it less likely that you will succeed on the test.

Here are some tips for using TOEFL exam practice questions to prepare for the test:

- Start by taking a practice test to get a baseline score. This will help you identify your strengths and weaknesses.
- Focus on practicing the sections of the test that you are most concerned about.
- Time yourself when you take practice questions. This will help you get used to the pace of the test.
- Review your answers after you take practice questions. This will help you identify the areas where you need to improve.

TOEFL exam practice questions are an essential part of preparing for the test. By using practice questions wisely, you can increase your chances of success on the test and achieve your English language goals.
